## 2025-2026 Academic Year

Presto Assistant provides a web-based tool to help fine arts administrators and teachers organize inventory, uniforms, library items, digital forms, finances, and communication with parents and students — all in a modern, secure platform.

Presto Assistant supports the following types of organizations:

- Band, Choir, Dance, Guitar, Mariachi, Orchestra, Theater

### **Standard — \$325/year per organization\***

The Standard License includes the grade levels appropriate for each campus type. For example, a middle school will include grades 5–8, while a high school will include grades 8–12.

### **Large District — \$275/year per organization\***

Any order that includes 25+ one-year licenses purchased together will receive a \$50 discount per license.

### **Expanded Add-on — \$100**

Add an Expanded license to a Standard license for an additional \$100/year to serve grades K-12.

The Expanded License will serve grades K-12 for the specified organization type. For instance, a choir organization can expand their student rosters to include grades k-12.

\* An organization is defined as one school entity type on one campus. For example, a high school band and a high school choir are each one separate organization.
